POLITICAL SYSTEN STRUCTURE IN JORDAN

Fawaz Mwaffaq Thannoon*

Abstract

The research aims at explaining the nature of political system in Jordan by showing the gist of the research and there is a sort of a burse in distributing the three powers: they are executive, legislative and juridical powers. It is clear through out the paper that there is on a control and hold for the executive power upon the legislative one.

This has created a sort of misbalance in the politics between both powers and upon the structure of the political system negatively all over the country.
